## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent basis for "the free end" in claims 1 and 7.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 5 and 7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either Webb et. al. or Whitney as both show double ended hooks on tools for pulling a workpiece.
5. Claim 7 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by any of Milbury or Young as all show a member with attached "means" to engage a portion of the workpiece.
6. Claims 7 and 8 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Marker et. al..

Art Unit: 3723

7. Claims 7-9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Reese.

***Claim Rejections - 35 USC § 103***

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. Claims 2-4, 6, 8 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Webb et. al. or Whitney as to make the devices of any convenient size or material to fit the particular need to perform any specific function is an obvious modification to one skilled in the art.
